Dear George

This is a short note to acknowledge my appreciation of your work in the cleaning and gardening contract at Atherton Gardens and Collingwood High Rise Estate.

This was the first public tenant employment clause in an Office of Housing contract and your efforts and commitment have made it a very successful pilot that we will be using as a model to extend the program into other Office of Housing Contracts. The evaluation has demonstrated that it is a positive and successful approach to creating social outcomes within a commercial contract.

The partnership approach has produced good outcomes for all partners and importantly, by providing employment for some of the most disadvantaged people in the state, the project contributes toward building more cohesive communities and reducing inequalities.

Yours sincerely
